According to Title VII of the Civil Rights Act

My sincerely held personal religious beliefs exempt me from receiving any Covid-19 vaccinations and their variants. There are multiple reasons for which I take this religious stance, while each of these statements may not apply to every individual vaccine, these statements do comprehensively cover those that have been released and may apply to many of those that may be released in the future.

1. My beliefs are deeply rooted in God and his teachings revealed in Scripture: **“Honor the Lord with your bodies.” (1 Cor. 6:20)**. The Bible encourages Christians to abstain from contaminating one’s body with substances that may be threatening to one’s bodily health. Based on the lack of sufficient research surrounding Covid-19 vaccines and the known harmful side effects many individuals have already experienced, including death, it may be harmful and dishonoring to my body to receive the vaccine. Until multiple long-term tests have been done, I cannot in good conscience allow my body to be used as test vehicle.
2. The use of any vaccination developed, **tested** or containing cell lines from an aborted fetus violates the sanctity of life. “Dr C Ward Kischer, embryologist and Emeritus Professor of Anatomy; specialist in Human Embryology, University of Arizona College of Medicine...”¹ says: “In order to sustain 95% of the cells, the live tissue would need to be preserved within 5 minutes of the abortion. Within an hour the cells would continue to deteriorate, rendering the specimens useless.” The cells from this fetal line is called HEK293 and was harvested from a healthy unborn baby, Author Hacking say: “...extracting and growing living cells is incredibly difficult. In order to give oneself the best chance of success you need to ensure the child is healthy, fresh, intact and sterile.” **“Thou shalt not murder” (Exodus 20:13)**, Human life is sacred because from its beginning it involves the creative action of God and it remains for ever in a special relationship with the Creator, who is its sole end. God alone is the Lord of life from its beginning until its end: no one can under any circumstance claim for himself the right directly to destroy an innocent human being. The deliberate murder of an innocent person is gravely contrary to the dignity of the human being, to the golden rule, and to the holiness of the Creator. The law forbidding it is universally valid: it obliges each and every one, always and everywhere. The fifth commandment forbids direct and intentional killing as gravely sinful. The murderer and those who cooperate voluntarily in murder commit a sin that cries out to heaven for vengeance.
3. While this is not the case for the current batch of vaccines, I believe the use of any of vaccinations that do contain cell lines from an aborted fetus to not only be immoral but it is also considered unclean. The Old Testament discusses unclean substances (**Isaiah 64:6**). Although the New Testament reveals Christ as the one who cleanses our souls, I have a responsibility to honor the Lord through my body.
4. There are concerns of dangerous metals and substances in the vaccine used as adjuvants to increase immune responses, at times these can cause persistent excessive immune responses, and **“as our bodies are the temple of the Holy Spirit” (1 Cor. 6:19, 1 Cor. 3:16-17)**, we should not do anything that would purposely harm our bodies.
5. The mRNA vaccines are designed to influence cells to result in non-natural functions and artificially create spike proteins. This is not a natural function that God created in my body. As such until theologians and medical philosophers have had time to discuss the theological consequences of these manipulations of our cells, I believe I must remain abstain.
6. There is evidence that the vaccine may have negative consequences related to reproductive health and we believe it would be sinful to put our future children and ourselves at risk in that manner.
7. The Bible says mankind has a natural sin nature: Romans 3:23: for all have sinned and fall short of the glory of God. Jeremiah 17:9: The heart is deceitful above all things and desperately wicked, who can know it? The drug companies have little to no repercussions if they injure or kill me or destroy my health while

they make billions. As such they pose a moral hazard. Thus, the Bible says with no foresight or control their sin nature will take control unless we stand firm. There are numerous studies that show that the vaccine has hurt people. It is not necessary to show that injury is common, just that it is possible. And thus you cannot force me to risk my health. Here are a few examples of documented injuries from the vaccine using government and main stream media sources.

8. If at any point a vaccine passport is required to work, shop, sell goods or run a business it would be reminiscent of, and a precursor to the Mark of the Beast. **Rev. 13:16-17** *“And the second beast required all people small and great, rich and poor, free and slave, to receive a mark on their right hand or on their forehead, so that no one could buy or sell unless he had the mark— the name of the beast or the number of its name.”* and **Rev 14:11** *“And the smoke of their torment rises forever and ever. Day and night there is no rest for those who worship the beast and its image, or for anyone who receives the mark of its name.”* The Bible clearly shows that anyone who carries the mark will be damned. As a Christian, I cannot be party to such schemes nor can I comply with what may be the attempt to ‘condition’ the general population to accept a future scheme under any guise. Note this attack on faith will be by **the government and their cronies.**
9. The Bible says *“The human heart is the most deceitful of all things, and desperately wicked. Who really knows how bad it is?”* Jer 17:9 and *“All people, ... are under the power of sin. 10 As the Scriptures say, ‘No one is righteous— not even one.’”* Rom 3:9-10. So to restrain men we need government. But because government is also composed of sinful people, Government must be held under even strictest scrutiny than the men they govern and government cannot be trusted especially when they collude with men. In fact, we can see real life examples of the sinfulness of those in government. From 1932 to 1972 the government unethically experimented on blacks in Tuskegee,² in 1969 the Rockefeller Foundation and Vanderbilt University with the government’s approval did radiation experiments on poor women. At the same time the US government did radiation experiments on dissidents.³ The footnote below lists multiple other times that the government colluded with corporations for profit and purposely let people die.⁴ The most recent one is a report by CBS News about how the FDA under Fauci experimented on black foster infants. In light of the above and an analysis of the data, the pastor I studied, and the church are not convinced of the best intentions of the current Government mandates and thus numerous key pastors have condemned the current vaccine mandates as immoral, unethical, ungodly and unbiblical. Rev. Neil Mammen has an open invitation to any scientist or doctor and ethicist to openly debate with him and his advisors in an open forum about the unethical government actions, and intentions in light of the data.
10. I believe that at many points in man’s history, from before the time of Nero to every communist and socialistic and dictatorial government these governments have attempted to supersede and destroy Christianity. As a follower of Christ, I must be watchful and resist anything like may look like such an attempt.

Past history: I was not aware of the presence of these dangerous or objectional elements in past vaccines, drugs, medical treatments, so any objection I have stands even if I have taken vaccines, drugs or participated in treatments in the past. I am thankful to God that these egregious acts and dangers have been finally revealed to the public.

What I believe: The Bible says God, desired a love relationship with each of us as individuals, so he had to give us the opportunity to rebel against him. For you cannot have a relationship without the option to **not** have a relationship. Sadly, we humans rebelled and continue daily to rebel against God. Now those who repent of their rebellion could restore their relationship with God. But to be just, God still has to punish that rebellion, for a judge who does not punish evil actions is a bad and unjust Judge. Thus, God had a dilemma, how does he punish us, yet restore us to Him, since the punishment is eternal separation from Him. So God's solution was to take the punishment upon Himself. God so loved the World that He gave His only Son, God the Son, Jesus, who willingly accepted our punishment as the substitutionary atonement. Whoever believes in Him shall not perish but have eternal life with Him. So, if you want to spend eternity with God, repent of your sins and accept Jesus as your Lord and Savior, and you will be saved from eternal separation from God. The defense of the archeological, historical, scientific, philosophical, and rational truth of this, i.e. the truth of Christianity is called Apologetics (find out more at www.NoBlindFaith.com).

If my request for religious accommodation is not granted or if there are any discriminatory actions or attitudes taken against me by employees or employers, or if I'm unjustly terminated, or if I am assigned a new role with less pay or which is later eliminated, or if my medical status or religious beliefs are shared with those who are not authorized to know this information, there are numerous Christian Civil Rights organizations who have agreed to assist me without fee in pursuing full legal action, most, if not all of whom have been successful in many of their litigations even as high as the Supreme Court.

References and Notes – please read this, this is very important:

1. The Constitution does not give us rights because it cannot. It does not have the authority to do so. Then where do rights come from? Only a Being with authority over all mankind can insist that all mankind, rich and poor, black or white, all treat each other equally. So as the Declaration of Independence states, our rights come from the only authority that can exist over all mankind i.e., the Creator of all mankind. This is self-evident. If there is no Creator, no one has inalienable rights and the only right you'd get are the rights you got by force. In which case we'd have no justification for saying slavery was wrong when it existed, and the only reason the slaves got rights was because of some nice white folk. But this is patently offensive and self-evidentially false. **The truth is that the slaves always had rights, but they were being unjustly violated.** It wasn't until society & the law recognized this violation that justice was achieved. Thus, rights can't come from the masses (a majority vote), government, society or by force. They can only come from God.
2. The Constitution and the Bill of Rights do not give us rights, they are actually a list of *negative* rights. That is, they restrict the government from infringing on our preexisting Inalienable Rights.⁵ See www.J3IP.com for more information.
3. Rights are individually assigned. We do not get more rights or less rights by virtue of being part of a group of people. That means that I don't gain any rights by being a part of a church. Nor do I lose rights by *not* being part of one. If a billion people believe one way but I don't, I still have all my God-Given rights. I also do not need to give up any Inalienable rights by choosing to live in any society. It is a fallacy that one must give up rights to live peacefully. One does not give up the right to steal from others when wanting to live in a community or nation, because God the only giver of rights never gave anyone that right to begin with.
4. Thus, this document is a declaration of my God Given rights. ***Note that my association with a church or group is not relevant as long as I genuinely hold these Biblically based spiritual values and they do not violate the rights of any other individual. My rights don't come from the church, they don't come from the state and they certainly don't come from mankind. They only come from God and his Word, the Bible. Thus, the only authority I need to cite is the Bible. While a pastor may sign this and a church may support it, that is only a formality. This form would be just as valid without any signature or church behind it, the verses from the Bible and the logical reasoning are sufficient.***
5. **The NIH says that the Covid Mortality rate is less than the mortality rate from driving.**
The COVID-19 mortality rate in people <65 years old during the period of fatalities from the epidemic was equivalent to the mortality rate from driving between 4 and 82 miles per day for 13 countries and 5 states, and was higher (equivalent to the mortality rate from driving 106–483 miles per day) for 8 other states and the UK. People <65 years old without underlying

The EEOC guidance says: “although prior inconsistent conduct is relevant to the question of sincerity, an individual’s beliefs – or degree of adherence – may change over time, and therefore an employee’s newly adopted or inconsistently observed religious practice may nevertheless be sincerely held.”⁶
7. There are over 63 studies showing that Ivermectin, a drug that has been given over a billion times and whose creator won the Nobel Peace Prize in 2015 is effective for COVID and yet there has been a ban on its use. In India in the state of Uttar Pradesh COVID deaths have almost been eliminated using it.⁷ You must agree that there are evil people in politics and evil people in corporations. The fact that there has been a concerted effort to impose vaccines on every human and a purposeful attack and suppression of news of alternative treatments has led me to be suspicious of the true intentions of the policymakers and pharmaceutical companies who are making Billions, to suspect that behind all this is greed, avarice, and lust for power. All traits of evil rulers in the Bible and foretold in Biblical prophecy.
